

## RemoteTableKit™ 8CP Product Specification

Updated: 6/2/2022

Sound Control Technologies (SCT) Table Extension Kits are designed to bring you the inputs from the Cisco Codec Pro backplane right to the *table!*

The RTK-8CP™ kit provides a reliable transparent audio link between the table microphones and the connected Cisco Codec Pro.

By simplifying complex cabling and extending traditional distance limitations up to 100m, SCT's extension kit provides integrators with cost and time saving solutions.
