

**Q:** What does the RM-X57™ do?

**A:** The RM-X57™ kit provides a reliable transparent link between a Poly Expansion Microphone and a connected Poly Studio Premium USB Video Bar, Poly Studio X50, or Poly Studio X70.

**Q:** What microphones are supported?

**A:** The RM-X57™ is designed to be used with the Poly Expansion Microphone, model EX-MIC. All three mic elements within this microphone are supported, as is full mute logic.

**Q:** What do the LEDs indicate?

**A:** The LEDs on both the RM-X57-TX™ and RM-X57-RX™ provide a good way to tell if the system is wired correctly and operating normally. Refer to the chart below for details.

MODULE	LED LABEL	ACTIVE STATUS	INDICATES
RM-X57-TX/RX	Power	Solid Green	Good Power
RM-X57-TX/RX	Status	Blinking Green/Red/Amber	Good Link

**Q:** What if I need to extend additional signals to the table?

**A:** Take a look at the RTK-X57™. In addition to extending the Poly Expansion microphone, the RTK-X57™ also extends HDMI, USB, and Ethernet with power to the table.
