

RC-EDA Firmware Release

v4.0 - 9/4/2024:

Files included in this release:

680_1010_04 Application FW Version: 00.01.19

682_1010_08 Explore FW Version: 1.9.1

Release notes:

1. Fixed CEC issue where Samsung TVs turn on when the codec wakes but do not turn off when codec enters standby.

Known limitations: When connecting to a Samsung TV, connect the TV to HDMI Output 1 for proper CEC control.

v3.0 - 11/07/2022:

Files included in this release:

680_1010_04 Application FW Version: 00.01.16

682_1010_08 Explore FW Version: 1.8.2

Release notes:

1. New feature: The RC-EDA can now send CEC power on/standby commands out the HDMI ports based on video being present/not present on the HDMI input.
2. New feature: The RC-EDA now supports RS232 commands through the 3-pin control port. See the SCT_Programming_Guide on www.soundcontrol.net for details.

v2.0 - 08/29/2022:

Files included in this release:

680_1010_04 Application FW Version: 00.01.13

682_1010_08 Explore FW Version: 1.7.4

V1.0 - 11/17/2021: Initial public release.

Files included in this release:

680_1010_04 Application FW Version: 00.01.12

682_1010_08 Explore FW Version: 1.6
