

Sound Control Technologies

RC-SDA+ Gen2

v4.0 - 6/26/2023:

1. Added support for USB video to a Poly G7500 codec via USB A-A cable.
2. Added SCT RS232 unsolicited messages, "usb_audio_mic_mute on/off" and "usb_unified_mic_mute on/off" to send to RS232 3-pin terminal block port. This can be disabled in the Config file.

v3.0 - 5/3/2023:

1. Added support for converting VISCA camera presets to Poly protocol.
2. Fixed LED pattern when initiating FW upgrade with no valid FW files on microSD card.
3. Fixed flickering video in USB2.0 mode (MJPEG)

v2.0 - 3/23/2023: Initial public release.
